English (speaking)

## About Me

5 years of experience in the software industry, with nearly 4 years in the Fullstack Developer role (FE Heavy).

Currently working on an outsourcing startup, so I have the chance to work on all aspects of production-grade products.

I am also a member of [Grokking\\_VN](#), which is an organization passionate developers can share fundamental knowledge with each other.

**My pros** are research and self-learning skills since new things always pique my curiosity.

**My target** is to become a Software Architect in the near future.

## Education

**Bachelor in University of Science, VNUHCM**

09/2015 - 09/2018

**Information Technology**

## Work Experience

**SaigonTek** 12/2019 - Present

**Fullstack Developer / Solution Architect**

- Developed 4+ products for VN & JP customers, mostly for the JP market.
- Worked on all aspects of the development processes: Requirement analytics, Planning, Wireframe review, Task Management, Development, and Monitoring.
- Contributed to some OSS projects on Github: [shopify/draggable](#), [conwnet/github1s](#),...
- **Tech Stack:** VueJS (Nuxt), Tailwindcss, NodeJS, PHP, MySQL, Linux cloud servers, AWS (EC2, ALB, S3, VPC, SG, SES), GoCD, Flutter (Android / iOS).

**Gogojungle VN** 12/2017 - 12/2019

**Junior Fullstack Developer**

- Developed & maintained an e-commerce system for the Japanese market.
- Worked on all three Frontend, Backend & DevOps teams.
- **Tech Stack:** VueJS, PHP (Laravel), NodeJS, MySQL, Linux cloud servers.

## Certificates

**UX Design Fundamental - Nordic**

06/2021 - 08/2021

- Learned the standard UX design process. It helps me empathize with designers and product owners. Thereby creating a better product for the end-user
